Peaceful, private and with a beautiful backyard (typical of a larger house) this is a rare find in this area. The uber central location make it a prime spot for those without a car as you can literally walk to shops, schools and public transport. A quiet elevated street with no through-traffic make this a safe, family friendly address. The interior has just undergone a re-fresh with neutral paint, new blinds and modern fittings. It's clean and ready to call home.
